LETTER OF RECOMMENDATION

To: Whom it may concern

It is my absolute pleasure to recommend Mr Malik Kolawole Lanlokun for the WSA Youth Ambassadors Program. As his Project Manager and an Adjunct Lecturer in the fields of Human Computer Interaction and Intelligent Systems, I have had the privilege of witnessing his exceptional talent and dedication firsthand.

Throughout his time as a Software Engineer and Teaching Assistant for my HCI and Intelligent Systems classes, Malik has consistently demonstrated an exemplary level of expertise , passion and commitment. He has been an invaluable asset to both our academic and administrative department. Consistently exceeding expectations and raising the bar for excellence.

Malik possesses a rare blend of technical prowess and interpersonal skills that have had a transformative impact on our student's learning experiences. As a Software Engineer, he has continually delivered exceptional work on our projects, showcasing a deep understanding of cutting edge technologies and programming principles. He has an uncanny ability to dissect complex problems, identify elegant solutions and effectively communicate them to both technical and non technical audiences.

As a Teaching Assistant, Malik has demonstrated exceptional teaching and mentorship abilities. He has a gift for explaining intricate concepts in a clear and accessible manner, earning the respect and admiration of our students. His approachable nature , patience and willingness to go the extra mile have made him a cherished mentor for our students. Inspiring them to excel in their studies and pursue their own research interests.

Without a doubt, Malik possesses all the qualities necessary to thrive in the WSA Youth Ambassadors Program. I am positive that he would make a positive and lasting impression on the program's fellows and broader community.

Please feel free to reach out to me via @landingjatta@utg.edu.gm if you require any further information regarding Malik's qualifications or suitability for the program.

Sincerely,
Landing Jatta
Project Manager and Faculty in HCI & Intelligent Systems
